Open: June 4, 2017

Programmer/Analyst

The Hospital Industry Data Institute (HIDI), the data company of the Missouri Hospital Association (MHA), is seeking a programmer/analyst for building and maintaining internal desktop applications and internal and external facing web applications. Candidate should possess a baccalaureate degree in computer science or equivalent training and experience. An understanding of software development best practices, as well as data management is preferred. Must be able to work well with others in identifying problems, evaluating alternatives and preparing corrective courses of action. Must be a self-starter with a high degree of self-motivation and self-discipline. Should have a minimum of four to six years of experience working in a related setting. Programming experience with .NET 4.6 Framework, including Visual Studio 2017, .NET programming languages (VB, C#), ASP.NET, HIVE, SQL Server and IIS 8.0 is desired. HIDI is an equal opportunity employer with a smoke-free work environment. HIDI participates in the E-Verify Program. Submit resume and salary requirements to Human Resources, P.O. Box 60, Jefferson City, MO 65102-0060 or fax to 573/893-7665.
