

# Southwest Missouri Clinical Faculty Academy

The Clinical Faculty Academy is a communitywide training program for registered nurses serving as adjunct clinical faculty at nursing schools in the Southwest Missouri area. Our mission is to develop qualified staff nurses for the role of clinical nurse educators in order to increase faculty workforce and expand and sustain enrollments in schools of nursing.

## Objectives

Upon completion of each day's curriculum, participants will be able to:

### Day 1

- identify key characteristics of effective teaching methodologies and roles of the clinical nurse instructor
- identify contrasting levels of nursing education
- discuss the process of curriculum development
- identify mechanisms for regional and nursing accreditation
- discuss active learning best practices to facilitate student's critical thinking
- define ways to stimulate learning and create a positive learning environment
- discuss essential basic legal concepts applicable to role as teacher
- identify approaches to conducting pre- and post-clinical conferences

### Day 2

- discuss the variety of written assignments required of students during the clinical experience
- define appropriate guidance and timely feedback for written assignments
- identify principles of the evaluation process
- identify differences between feedback and evaluation
- discuss formative and summative evaluation
- identify constructive feedback to students
- discuss effective evaluations of students at different levels of competency (novice to expert)
- identify roles and characteristics of the clinical teacher/instructor
- discuss the benefits of keeping anecdotal notes of students' clinical activities and performance
- identify difficulties within the evaluation process
- identify strategies for problem resolution and remediation
- define literature related to student incivility in nursing
- identify methods to maximize student learning in the clinical setting
- identify ways to deal with a variety of difficult student situations
- discuss the multiple roles of adjunct clinical faculty and the way to balance roles
- describe time management for a clinical day

## What Will I Gain?

As a clinical educator, you can help train the next generation of nurses. Through the Clinical Faculty Academy, you will gain the following.

- the core competencies and learner concepts necessary to serve as an adjunct clinical nurse faculty for local nursing schools.
- to guide and evaluate students and prepare written assignments in order to serve as an adjunct clinical nurse faculty for local nursing schools.
