Business Intelligence Product Developer

The Hospital Industry Data Institute (HIDI), the data company of the Missouri Hospital Association (MHA), is seeking a business intelligence product developer for the design, development, testing, implementation, maintenance and support of BI solutions utilizing IBM Cognos or other high-level software development tools. Combination of an associate's degree in computer science, information systems or in a related discipline and at least two years of experience in a reporting/analytic role with a focus on visualization design or development required. Appropriate experience may be considered in lieu of associate's degree. Good verbal and written communication skills required. Ability to maintain good interpersonal relationships is a must. Must demonstrate a working knowledge of SQL with using healthcare data preferred. Exposure to an agile environment preferred. HIDI is an equal opportunity employer with a smoke-free work environment. HIDI participates in the E-Verify Program. Submit resume and salary requirements to Human Resources, P.O. Box 60, Jefferson City, MO 65102-0060 or fax to 573/893-7665.
