

INTENT TO PARTICIPATE

The Missouri Hospital Association is pleased to announce the opportunity for Missouri hospitals to join the **Sepsis: Early Recognition and Intervention Immersion Project – Cohort 2** through QUALITY WORKS® beginning Nov. 29, 2017, and ending Sept. 18, 2018.

Previous participants who completed timely project deliverables, such as process measure collection, implementation of sepsis assessments and bundle compliance, were more likely to achieve a significant percentage reduction of sepsis cases advancing to shock that lead to increased sepsis mortality.

Hospitals interested in this project should assess their organizational readiness for change as an important factor in successful implementation of new policies, programs and practices. Conducting a readiness assessment can identify your organizational needs, major gaps in workflow and overall readiness to enter an intensive QI project, such as the Sepsis: Early Recognition and Intervention Immersion Project. Results from a readiness assessment also will help shape your organization’s approach to various QI initiatives.

MHA provides a project mentor to support participating hospitals throughout the project by tracking project interventions, data and percentage of completed tasks. Project mentors also complete monthly coaching calls per hospital to offer more individual support and provide a wealth of resources; ensuring participants have more time for performance improvement.

By signing this form, you agree to participate in the Sepsis: Early Recognition and Intervention Immersion Project from inception to completion. This agreement includes participation in monthly coaching calls and webinars, monthly submission of project data and assigned deliverables and time and resource allocation to complete project tasks to fully implement the identified best practices, and achieve sustained outcomes.

Registration will open Oct. 2, 2017, and close Nov. 3, 2017. **Cohort 2 registration is limited to 20 Missouri hospital participants.** Complimentary registration is available for HIIN-participating hospitals through the use of contract funds. Please support stewardship of contract funds by only participating if your organization has the capacity and readiness to engage in this intensive immersion project. Non-HIIN-participating hospitals can contract through QUALITY WORKS® according to the fee schedule. For more information on the fee schedule, email Sherry Buschjost at sbuschjost@mhanet.com.
