

EMTALA — HOSPITAL and CAH

Self-Assessment Questions	YES	NO	N/A	Date/Initials	Comments
<p>Medicare participating hospitals must meet the Emergency Medical Treatment and Labor Act (EMTALA) statute codified at §1867 of the Social Security Act, the accompanying regulations in 42 CFR §489.24 and the related requirements at 42 CFR 489.20(l), (m), (q), and (r). Appendix V of the Medicare State Operations Manual provides hospitals with extensive guidance on the investigative procedures and the interpretive guidelines used by surveyors to determine compliance with the EMTALA regulations. The EMTALA checklist only provides a general overview of the requirements. Because the EMTALA survey process is complaint driven and subject to wide variation in interpretation depending on the unique circumstances of each complaint, we strongly encourage hospitals to closely review Appendix V and Survey and Certification memos 14-06, 13-38, 19-15, 19-14.</p>
